PROFILE

As a passionate and determined fresher web developer, I aim to leverage my knowledge in front-end and back-end development to create visually appealing and functional websites. With a strong foundation in HTML, CSS, and JavaScript and experience in frameworks like bootstrap. I aim to collaborate with a dynamic team to build innovative, user-centric web solutions. I am eager to learn and adapt to new technologies and industry best practices, while consistently delivering high-quality code. Through my commitment to continuous growth and problem-solving skill, I strive to contribute to the organization's success and establish a successful career in web development.

WORK EXPERIENCE

Front-End Web Develop Intern

Mind Space   (5 Month) 8 Sept 2023

- Frontend Developer at Mindspace, adept in HTML, CSS, JavaScript, ReactJs, and Tailwind. Specialized in collaborating on a project to create an online session booking website for a psychology-oriented platform.
